m4a tunes, but also your music, videos and MIDI-Tunes that are stored in your .mp3 files. Simply add the song, your own name (or any that you like), your genre (e.g. rock, country, pop, jazz, techno, etc.) and then click Add Song to Song List. You can then access the song from your game and it will automatically launch your player. The tool is free for use, but requires a free download of the Guitar Hero III game, which can be obtained from the [Guitar Hero III website](http://www.guitarhero3.com/)! [A screen grab showing the Song List Editor](http://www.guitarhero3.com/#!/song-list-editor) (## [Guitar Hero III Mapper](http://www.guitarhero3.com/#!/guitar-hero-iii-mapper)) (The Guitar Hero III Mapper is a utility that allows you to map out your guitar riffs, frets, chords, strums and other markers across a keyboard. Using the Mapper you can add frets, riffs, chords, strums, markers and the like to each key on your keyboard. You can then access your keystrokes by hitting the corresponding button. The application is very simple to use. You can add a new page by clicking the New Page button and then creating a new page with any title you like. You can then add any text, a drop-down menu, images, buttons and more. Finally, click the Save Changes button to create the layout. [A screen grab showing the Mapper](http://www.guitarhero3.com/#!/guitar-hero-iii-mapper) (## [Phrase Finder](http://www.guitarhero3.com/#!/phrase-finder)) (The Phrase Finder is a tool that allows you to browse your existing Guitar Hero III songs and pick out the phrases. Simply browse the [Guitar Hero III phrase list](http://www.guitarhero3.com/#!/phrase-list) to find the song that you want to practice 82157476af
